

## **Order Fulfillment Specialist**

Part-time position with potential future management position

antsle is seeking a part-time (29 hours a week) **Order Fulfillment Specialist** to join our innovative team. antsle is a rapidly growing startup that has created a Private Cloud Server with our own operating system (antsleOS) pre-installed. We're proud to manufacture our antsles right here in San Diego County. Software developers & geeks alike love antsle because of its affordability and built-in privacy compared to public web hosting. The antsle Private Cloud Server ensures an efficient and joyful user experience by combining cutting-edge hardware with our preinstalled software antleOS and antMan. If you're passionate about joining a team that is giving freedom, control and data ownership back to the people, then this is the place for you!

### **Fun things you'll be doing to make an impact:**

- Hand-craft our antsle® Private Cloud Servers. In practice, that means you'll be building computers. Each unit is different, since they are built to order. This involves manual labor- and by manual labor we mean using a screwdriver (no noise nor dust involved).
- Pre-load antMan and antsleOS onto each unit.
- Gently pack our precious antsles and prepare them for shipping. This will involve communicating with our shipping carriers.
- Assist our awesome team in the overall process of Order Fulfillment (from receiving an order to delivering it to the end customer).

### **Skills that will help you succeed:**

- Knowing the difference between a flat-head and Phillips-head screwdriver. :)
- Having assembled a computer in the past.

- Dependability and diligence — Consistently maintaining the high level of quality that antsle is known for.
- Being a team player.

**Your enthusiasm to learn is just as important to us as what you currently know, hence the following are preferred but definitely not required:**

- Hands-on experience working with UPS/FedEx portals
- Familiarity with work order/ticketing software.
- Being a pro at Apple Pages, Slack, Adobe Acrobat Reader, etc.

**What your colleagues are saying about antsle:**

- Our culture is based on mutual trust and empowerment of each individual on our team. We believe that human dignity is inviolable, and that open communication independent of corporate hierarchy is key to success. We are all part of this winning team, where you, too, can thrive in our autonomous, innovative environment.
- You can grow with the team (1 year horizon) with the possibility of becoming a Shift Leader or Order Fulfillment Manager.
- Compensation is based on experience.
- You'll be working at our order fulfillment center in Eastlake, Chula Vista.

**antsle is most decidedly an equal opportunity employer. We encourage applicants of diverse backgrounds and hire without regard to race, color, gender identity, religion, national origin, ancestry, citizenship, physical abilities, age, sexual orientation, veteran status, or any other characteristic protected by law to apply.**

**Please submit your resume and an optional cover letter to [careers@antsle.com](mailto:careers@antsle.com) with your first and last name along with the position you are applying for in the subject line. We're only accepting applications from those who are local to the greater San Diego area. Please do not apply if you live remotely.**
