

## **Web/Cloud Developer**

### Specializing in Clojure/ClojureScript

antsle is seeking a **Web/Cloud Developer** to join our innovative team. antsle is a rapidly growing startup that has created a solution for Edge Computing and Private Cloud Computing. Developers & geeks alike love antsle because of its affordability and built-in privacy compared to public hosting. The antsle Private Cloud Server ensures an efficient and joyful user experience by combining cutting-edge hardware with our preinstalled software antleOS and antMan. Our antsleOS is based on the mighty Gentoo Linux with libvirt technology, supporting both KVM and LXC virtualization. If you're passionate about giving freedom, control and data ownership back to the people then this is the place for you!

#### **Fun things you'll be doing to make an impact:**

- Autonomously develop new kick-ass features of our Edge/Cloud Management platform antMan.
- Use your super powers of functional languages such as Clojure and ClojureScript. We'll train you if you're not there yet.
- End-to-end responsibility from specs to release/support: It's your baby!
- Use Behavior Driven Development (BDD) and learn from our BDD masters.
- Change the world by bringing IaaS to the Edge.

#### **Skills that will help you succeed:**

- Power of experience in functional programming, 1+ years (Scala, OCaml, F#, Haskell, Ruby, JavaScript, Python...)
- Magical abilities as a Linux Systems Engineer geared towards devops (1+ years)
- Understanding of virtualization: Xen, KVM, LXC, VMware, VirtualBox, libvirt
- Love for the nitty-gritty of Docker, Kubernetes, and other container orchestration tools.

**Your enthusiasm to learn is just as important to us as what you currently know, hence the following are preferred but definitely not required:**

- Previous development experience with Clojure/ClojureScript.
- Previously worked with BDD (Behavior Driven Development), cucumber, and capybara.

**What your colleagues are saying about antsle:**

- Our culture is based on mutual trust and empowerment of each individual on our team. We believe that human dignity is inviolable, and that open communication independent of corporate hierarchy is key to success. We are all part of this winning team, where you, too, can thrive in our autonomous, innovative environment.
- Compensation is based on experience.
- Located in Downtown San Diego, you will enjoy beautiful weather year round, stunning beaches, a relatively low cost of living, and a thriving tech and startup community.
- We embrace cutting-edge and open-source technology (e.g. Clojure, using the functional programming paradigm, Gentoo, ZFS, etc.), where it is the most effective in our development process.

**antsle is most decidedly an equal opportunity employer. We encourage applicants of diverse backgrounds and hire without regard to race, color, gender identity, religion, national origin, ancestry, citizenship, physical abilities, age, sexual orientation, veteran status, or any other characteristic protected by law to apply.**

**Please submit your resume and an optional cover letter to [careers@antsle.com](mailto:careers@antsle.com) with your first and last name along with the position you are applying for in the subject line. We're only accepting applications from those who are local to the greater San Diego area. Please do not apply if you live remotely.**
